SANIKAB® Cubicle Fittings

SANIKAB®

Pure stainless steel name reveals everything. No other material is like pure stainless steel: durable, clean, environment-friendly, and easy to be maintained. Made of pure stainless steel, Sanikab products have not only attractive values but also appealing round and right-angle shapes, which are the only two shapes adopted by the products. Simple geometrical shape and pure material you will find them hard to resist, whenever today, tomorrow or at some future time.
